

Charter Oak Youth Football & Cheer Cut Contract Agreement Form

RESIDENCE REQUIREMENTS

All players / cheerleaders shall play for the city in which their families reside. It is the responsibility of each athletic director to verify the player's address and attest to the verification by signing the participant's contract as required. Utility bills may be requested for verification by the team athletic director and/or the conference.

FREE AGENT

When a team signs up forty (40) players, the additional players are free agents. There will be no waiting list. Sign-ups may be closed when a team reaches thirty-three (33) players with a waiting list of seven (7) to reach forty (40) players.

Any player who has played for the franchise in the previous year may not go to another franchise to play unless the player has a cut contract. Any franchise closing sign-ups or that has more than thirty-three (33) players can only add players from its city boundaries if it falls below thirty-three (33) players on its roster due to the conference executive board reducing below thirty-three (33).

All teams must cut to a maximum of thirty-three (33) players one (1) week before certification day. Players cut are now free agents and the cut player's contract must be marked "free agent." The team must notify the division president that these players are now available to play for other cities.

A team may not close up sign-ups with fewer than thirty-three (33) players or that team will be ineligible for championship play or post season games.

PLAYERS AGREEMENT

A certified player of a franchise who moves to another franchised area within one year has the option of remaining with the original franchise. This option must be exercised within the calendar year.

The City of _____ hereby agrees to release _____ to participate in the Charter Oak Youth Football and/or Cheer Organization. By all signatures affixed on this agreement, both cities, the player, and the parent(s)/guardian(s) acknowledge the player's current residence and hereby agree to this transfer.
