NEW PHYSICAL RULES FOR STARTING 2011 Season

Beginning with the 2011 season, Conference will be implementing new rules governing player physicals. Beginning this year, Conference will not accept as timely or valid any physical performed on a player that occurred before June 1, 2011. Furthermore, Conference will longer accept any physician's form.

If you take your child to a physician for a physical, that physician must use the official player contract distributed by Conference. These will be available in Month of June. We are no longer permitted to attach any doctor's notes or forms to the player contract. These rule changes were required by Conference's insurance carrier. If you have any questions, please contact your team AD.
